December 7, 2009

Dear Valued Sierra X-Ray Customer,

Sierra X-Ray is proud and very excited to announce the merger with Trius Diagnostic Imaging, Inc effective December 7, 2009. Trius Diagnostic Imaging has currently been providing excellent digital and x-ray services for several years here out of the Reno office working through their main office out of Stockton California. This merger makes us a more dynamic company able to offer better product pricing with a wider variety of resources to meet our customer's needs. This is a positive merger for our joint companies and our customers. We are now Trius Diagnostic Imaging, Inc. and though the phones will be answered Trius the same employees are here to meet your needs in the Reno office.

We are proud to add that Jay Sullivan is the Owner of Trius with many years experience starting as a processor technician and building Trius from the ground up. Alechia Saylor is the Operations Manager, and Cathy Nelson is Office Assistant under Alechia in the Stockton office. Alechia and Cathy will be answering the phones as well as Nadine and are highly competent and can be counted on to assist you with any of your needs.

I, Doug Miller remain as "General Manager and Sales". Mac is our "Lead Processor Technician", Bob Corrado and Josh Weippert is still here providing excellent service. Nadine Mickey remains "Office Manager" of the Reno office and here to address any questions or issues you may have.

We are now a work force of 21 employees with this merger putting us on the cutting edge of any current and future technologies to offer our customers. We also have two X-Ray Engineers assigned locally with a combined lifetime experience of over 60 years. Steve Rich and Craig Hines are highly qualified and educated to address any x-ray issues our customers may experience.

We've included our W-9 for your records and invite you to call with any questions you may have.

I personally thank you for the years of service. We all hope you have a wonderful Holiday Season and look forward to many years as your honored Radiological X-ray service and your local respectful equipment provider.

The Staff of Trius Diagnostic Imaging, Inc.
